

# Hossein Hassanian-Moghaddam MD PhD

Professor of Toxicology, Shahid Beheshti University of Medical Sciences

Hossein Hassanian-Moghaddam obtained his MD from Mashhad University of Medical Sciences in 1993. He completed his training in Forensic Medicine in Tehran University of Medical Sciences in 1998. After becoming a faculty member in Shahid Beheshti University of Medical Sciences in 1998, he started working in the biggest and busiest clinical toxicology ward in the world; i.e. Loghman Hakim Poison Center. He passed a postgraduate course in the field of clinical toxicology in department of clinical toxicology and pharmacology, Newcastle Mater Misericordiae Hospital, Australia in 2004. He has the experience of handling poisoned patients for more than 19 years. His educational background has given him a broad base from which to approach many social dilemmas. Pesticides, opioids, toxic alcohols, heavy metal toxicity as well as pharmaceutical poisoning are his every-day practice, which are reflected in more than 200 published English abstract and article in scientific journals and international congresses.

*Other positions he has had during his active years include:*

1. National Board of Addiction Studies (PhD program), Ministry of Health & Medical Education Scientific Member (2014—to date)
2. Excellent Centre of Clinical Toxicology, Ministry of Health & Medical Education (This is the highest Centre for education and research in clinical toxicology) Scientific Member (2013—to date)
3. Founding Member of Iranian Forensic Medicine Organization (2000)
